### About This Game

## **COMMAND YOUR ARMY. HACK YOUR ENEMY TO PIECES. TURN THE HILLS RED.**

Deadhold is a gore infused, fast-action, tactical RTS. With support for up to 4 coop players, the gritty dark fantasy world of Deadhold comes to life through its story driven campaign. In multiplayer, Deadhold supports up to 8 players in teams or 4 players in free for all, and a variety of game modes.

### **A NEW KIND OF RTS**

Deadhold's gameplay is a unique mix of real-time tactics essentials like strategic positioning, unit classes, and physically based simulation similar to such classic games as Myth and Dawn of War 2, combined with the items, loot, and leveling found in action RPGs like Diablo and Path Of Exile. The result is a fresh take on the tactical RTS that should delight fans of both RTS and ARPG genres.

---

Battles in Deadhold are physically modeled. The flight of an arrow is realistically simulated and will embed inside a units head, arms, legs or chest. Unit movement is based on physics, increasing the value of tactical positioning: A line of warriors can block incoming enemies or force them to engage or go around. The explosive bomb wielded by the Sapper can literally dismember units as body parts explode and fly into the air. Injuries and severed limbs stain the ground realistically with blood.

## **CAMPAIGN**

A dark force has risen in the west, obliterating any who stand in its wake. The last living races have banded together to change the course of fate, setting Deadhold's campaign in motion. Told from the perspective of the narrator, you'll uncover the history of the blight, and the truth that lies behind their creation. The 16 mission campaign challenges you to wield the power of the gods, using tactics and strategy to overcome the onslaught of an overwhelming evil force.

In campaign, the scale of Deadhold's player choice becomes clear. As a paragon of the Empire, players will choose a Deity in which to specialize. Spells are unlocked as players earn experience, allowing them to customize their play style. Players can further customize their builds by slotting relics, runes, and gems, which can drop from defeated enemies.

A tier based leveling system adds significant replay value to the campaign missions. As players progress through each tier, new and greater challenges and rewards await them: boss-fights, different enemy patrols and tactics, additional mission objectives, and higher quality items.

## **MULTIPLAYER**

Competitive multiplayer in Deadhold supports team and free for all play, with up to 8 players in a variety of maps and gamemodes. Leaderboards and tournaments are planned additions during Steam Early Access.

Beautifully made game by Black Pants Studio.

Control and mechanics in the game are perfect. The level get harder as you are progressing but that's what make it a challenging game.

There is an enticing love story in the game that you will find out after you finish the game.

I personally LOVE this game.

Definitely A+ recommendation.. Is the same game that you can purchase on iPhone or iPad.

Only designed with a touch screen in mind so if you have

a traditional computer it is not worth the purchase.. Sanjou! Hisshou! Shijou saikyou!!

(Nan da tten da? Furasutoreeshon ore wa tomaranai)

ONE PUNCH! Kanryou! Rensen renshou!

(Ore wa katsu!! Tsune ni katsu!! Asshou!!)

Power! Get the power! Girigiri genkai made. It's a cute collection of illustrations! Not a game, but I don't give a hoot. The music is fitting

it is what it is yo ^^ . A great example of how you don't need complicated graphics/gameplay in order to tell an effective short story.. Cool little puzzle game, but it's 2 short.

---

I can't wrap my head around how this was created and why it is constantly chilling on the front page but please dont buy this. You would literally have more fun and interest at playing with your calculator than this. 100% totally accurate parody of Hamlet by the 'realest' Shakespear.

10/10 Would definitely \*spolier alert\* be-beheaded\die\kill\be-killed\not-be-killed\blow-up\be-blown-up\be\not-be again.. This game is awesome. Have time to kill? You're gonna like this game. Unless you don't like it...

#### DISCLAIMER

THIS GAME HAS LOTS OF BACKTRACKING, AND TRIANGLES, AND ANIMAL NOISES, SO OF YOU DON'T LIKE THE FIRST TWO,

DO. NOT. PLAY. THIS. GAME.

what I mean is that while you can mute the sound, this game is seemingly endless, some levels are going to take you a couple seconds to beat, but others. WILL. TAKE. MINUTES. as of writing this review, I have around 2 hours in the game, but I am only at level 40 :V

and I'm gonna get all the achievements if its the last damn thing I do.. If you like football or football games you will love this documentary.. The storyline was very subtle. So subtle to this day I can only speculate on the deeper aspects of its lore. It was indeed a puzzle platformer and most of the puzzles were easy enough to figure out with some thoughts one or two did elude me and made me just stare at the screen lost as to the workings of the puzzle. In the end even when I have beat the game i didnt feel the usual rush of beating a game, i just felt confused and wondering. If you not looking for story and looking for a very short puzzle platformer than be my guest, take the blue pill and go down the rabbit hole. And when you are done mayhaps you can join the many scholars and trying to figure out just as to what this whole affair was about, was it a lost couple trapped in purgatory, was it some kids on shrooms, who knows. 10/10. This totally blows my mind.
